DEVELOPING STORY

How MSF is responding to the war in Gaza

In Palestine, Doctors Without Borders/Médecins Sans Frontières (MSF) provides humanitarian assistance to people affected by violence and displacement, and has scaled up activities to assist people affected by Israel's war and siege on Gaza.

How they are helping in Palestine:

In Gaza, our teams are providing lifesaving care with extremely limited supplies in hospitals overwhelmed with casualties, often while coming under attack by Israeli forces. In the West Bank we operate mobile clinics to reach people cut off from health care and train community members on how to provide first aid when facilities are inaccessible during frequent Israeli military incursions.
